(3) Beginning January 1, 2001, the department of revenue shall administer and supervise a program for the revaluation of all taxable property within classes three, four, and ten. (b) If the department uses construction cost as one approximation of market value, the department shall fully consider reduction in value caused by depreciation, whether through physical depreciation, functional obsolescence, or economic obsolescence.

(c) If the department uses the capitalization of net income method as one approximation of market value and sufficient, relevant information on comparable sales and construction cost exists, the department shall rely upon the two methods that provide a similar market value as the better indicators of market value.

(d) Except as provided in subsection (3), the market value of special mobile equipment and agricultural tools, implements, and machinery is the average wholesale value shown in national appraisal guides and manuals or the value before reconditioning and profit margin. The department shall prepare valuation schedules showing the average wholesale value when a national appraisal guide does not exist.

(3) The department may not adopt a lower or different standard of value from market value in making the official assessment and appraisal of the value of property, except:

(a) the wholesale value for agricultural implements and machinery is the average wholesale value category as shown in Guides 2000, Northwest Region Official Guide, published by the North American equipment dealers association, St. Louis, Missouri. If the guide or the average wholesale value category is unavailable, the department shall use a comparable publication or wholesale value category.

(b) for agricultural implements and machinery not listed in an official guide, the department shall prepare a supplemental manual in which the values reflect the same depreciation as those found in the official guide; and

(c) as otherwise authorized in Titles 15 and 61.

(4) For purposes of taxation, assessed value is the same as appraised value.

(5) The taxable value for all property is the percentage of market or assessed value established for each class of property.

(b) Properties in 15-6-132, under class two, are assessed at 100% of the annual gross proceeds.

(c) Properties in 15-6-133, under class three, are assessed at 100% of the productive capacity of the lands when valued for agricultural purposes. All lands that meet the qualifications of 15-7-202 are valued as agricultural lands for tax purposes.

(d) Properties in 15-6-134, under class four, are assessed at the applicable percentage of market value minus any portion of market value that is exempt from taxation under 15-6-201(1)(z); *and* (1)(aa); ~~and (1)(bb).~~

- (b) the taxpayer makes a written request; or
- (c) the land is outside an incorporated city or town.”

Section 6. Section 15-10-420, MCA, is amended to read:

“15-10-420. Procedure for calculating levy. (1) A governmental entity that is authorized to impose mills may impose a mill levy sufficient to generate the amount of property taxes actually assessed in the prior year, even if that levy is greater than the levy established by law. The maximum number of mills that a governmental entity may impose is established by calculating the number of mills required to generate the amount of property tax actually assessed in the governmental unit in the prior year based on the current year taxable value, less the value of newly taxable property.

(2) A governmental entity may apply the levy calculated pursuant to subsection (1) plus any additional levies authorized by the voters to all property in the governmental unit, including newly taxable property.

(3) For purposes of this section, newly taxable property includes:

(5) For purposes of subsection (1), taxes imposed do not include net or gross proceeds taxes received under 15-6-131 and 15-6-132.

(6) In determining the maximum number of mills in subsection (1), the governmental entity shall take into account any change from the prior year in

the amount of statutory reimbursements for changes in the property tax laws. *The amount of motor vehicle disposition under 61-3-509(2) is an increased statutory reimbursement.* It may increase the number of mills to account for a decrease in reimbursements and shall decrease the number of mills to fully account for any increase in reimbursements.

(7) The department shall calculate the number of mills to be imposed for purposes of 15-10-107, 20-9-331, 20-9-333, 20-9-360, 20-25-423, 20-25-439, and 53-2-813. However, the number of mills calculated by the department may not exceed the mill levy limits established in those sections.

(8) The department may adopt rules to implement this section. The rules may include a method for calculating the percentage of change in valuation for purposes of determining the elimination of property, new improvements, or newly taxable property in a governmental unit.”

Section 7. Section 20-9-141, MCA, is amended to read:

If a county or district receives more guaranteed tax base aid than it is entitled to, the excess must be returned to the state as required by 20-9-344."

Section 11. Section 61-3-509, MCA, is amended to read:

"61-3-509. Disposition of taxes. Money collected under 61-3-504 that previously was distributed pursuant to levies imposed by 20-9-331 and 20-9-333 is a local government reimbursement for the purposes of 15-10-420. If the distribution of money collected under 61-3-504 to a school district general fund results in a lower revenue than the district received in fiscal year 1999 and the district has, for all years after fiscal year 1999, received less revenue than in fiscal year 1999, then the district general fund is entitled to state reimbursement for the amount of the difference between the fiscal year 1999 revenue and the prior school fiscal year revenue under 61-3-504. Prior to January 31, the office of public instruction shall distribute to each school district an amount equal to the state reimbursement for the prior school year.~~

Section 12. Section 167, Chapter 584, Laws of 1999, is amended to read:

“Section 167. Reimbursement to counties, cities, towns, and consolidated city-county governments for losses in revenue. (1) (a) The department of revenue shall determine the amount of tax and other revenue lost by each local government unit as a result of the enactment of House Bill No. 128, House Bill No. 174, House Bill No. 420, House Bill No. 658, Senate Bill No. 200, and Senate Bill No. 530 for fiscal year 2000 and for fiscal year 2001. The determination must be made by August 15, 1999, for fiscal year 2000, and by March 15, 2000, for fiscal year 2001. The department shall use fiscal year 1998 as its base year for each determination.

(b) As used in this section, “local government unit” means a county, city, or town capable of levying mills, consolidated city-county government, school district, miscellaneous district, or other local district that levies mills. The term does not include the state.

(c) The department shall determine the amount of tax and other revenue due each local government unit for fiscal year 1998 from the following sources:

(i) property taxes levied by each local government unit within each county or consolidated city-county government for fiscal year 1998, but excluding any mills levied by the state pursuant to ~~section 1 of Senate Bill No. 79~~ 15-10-107, 20-9-331, 20-9-333, 20-9-360, 20-25-439, and 53-2-813; and

(ii) oil and gas production taxes levied and distributed as provided for in Title 15, chapter 36.

(2) The department shall calculate for each local government unit for fiscal year 1998 the amount of tax and other revenue that would have been due each local government unit from the sources listed in subsection (1) if House Bill No. 128, House Bill No. 174, House Bill No. 420, House Bill No. 658, Senate Bill No. 200, and Senate Bill No. 530 had been in effect for fiscal year 1998.

(3) In making the calculation provided for in subsection (2), the department shall take into account any benefit to a local government unit that levied mills against electrical generation property in fiscal year 1998 from any increase in the assessed value of electrical generation property stemming from the sale of electrical generation assets subsequent to tax year 1997.

(4) (a) Each county, city, town, and consolidated city-county government that in aggregate lost tax revenue in a particular year, based on the difference between the calculation in subsections (1)(c) and (2), must receive the same percentage of the appropriation for local government reimbursements as the appropriation bears to the total amount of loss for all local government units in this state. Payments must be made in two similar installments for each fiscal year on or about December 15 and June 15. Each county, city, town, and consolidated city-county government is authorized to distribute the revenue received among its funds and districts according to ~~current~~ *the prior year year's* mill levies. Except as provided in ~~subsections~~ *subsection* (4)(b), each tax increment financing district must receive the benefit of the reimbursement based on the loss to the incremental taxable value of the district.

(b) A tax increment financing district that consists of an industrial district created under 7-15-4299 may not receive any reimbursement under subsection (4)(a).

(5) The amount of loss calculated in subsection (2), converted to taxable value by multiplying by the applicable mill levy, ~~shall~~ *must* be added to the taxable value of taxing units to determine their bonding limits.

(6) (a) A charter form of local government that has a charter provision that prohibits an increase in the number of mills that may be levied to compensate for the loss of taxable value, as authorized in ~~section 11~~ *15-10-420*, is entitled to further reimbursement in addition to that computed under subsections (1) through (5) of this section.

(b) The amount of reimbursement is equal to the difference between the amount of the reimbursement calculated under subsections (1) through (5) and the amount of property tax imposed in tax year 1998. If the amount appropriated for the reimbursement under this subsection (6) is insufficient to fully fund all the jurisdictions entitled to reimbursement, the payments must be prorated to the jurisdictions. The payments must be made with the payments made under subsections (1) through (5)."

Section 13. Section 169, Chapter 584, Laws of 1999, is amended to read:

“Section 169. Funding — appropriations. (1) The committees established in [section 168] may receive gifts, grants, and donations. "15-10-420. Procedure for calculating levy. (1) A governmental entity that is authorized to impose mills may impose a mill levy sufficient to generate the amount of property taxes actually assessed in the prior year, even if that levy is greater than the levy established by law. The maximum number of mills that a governmental entity may impose is established by calculating the number of mills required to generate the amount of property tax actually assessed in the governmental unit in the prior year based on the current year taxable value, less the value of newly taxable property.

(2) A governmental entity may apply the levy calculated pursuant to subsection (1) plus any additional levies authorized by the voters to all property in the governmental unit, including newly taxable property.

(3) For purposes of this section, newly taxable property includes:

(a) annexation of real property and improvements into a taxing unit;

(b) construction, expansion, or remodeling of improvements;

(c) transfer of property into a taxing unit;

(d) subdivision of real property;

(e) reclassification of property;

(f) transfer of property from tax-exempt to taxable status; and

(g) revaluations caused by expansion, addition, replacement, or remodeling of improvements.

(4) Subsection (1) does not apply to school district general fund levies and the school district levy for tuition obligations established in 20-5-324(5).

(5) For purposes of subsection (1), taxes imposed:

(a) *include registration fees imposed on light vehicles under [section 2, Chapter 515, Laws of 1999] and distributed under 61-3-509(2); and*

(b) *do not include net or gross proceeds taxes received under 15-6-131 and 15-6-132.*

(6) *In determining the maximum number of mills in subsection (1), the governmental entity shall take into account any change from the prior year in the amount of statutory reimbursements for changes in the property tax laws. The amount of motor vehicle disposition under 61-3-509(2), as that section read on December 31, 2000, is an increased statutory reimbursement. It may increase the number of mills to account for a decrease in reimbursements and shall decrease the number of mills to fully account for any increase in reimbursements.*

(7) *The department shall calculate the number of mills to be imposed for purposes of 15-10-107, 20-9-331, 20-9-333, 20-9-360, 20-25-423, 20-25-439, and 53-2-813. However, the number of mills calculated by the department may not exceed the mill levy limits established in those sections.*

(8) *The department may adopt rules to implement this section. The rules may include a method for calculating the percentage of change in valuation for purposes of determining the elimination of property, new improvements, or newly taxable property in a governmental unit."*

(2) *If [this act] is passed and approved and if Chapter 515, Laws of 1999, is approved by the electorate, then [section 11 of this act] is void and [section 34], Chapter 515, Laws of 1999, amending 61-3-509, must read as follows:*

"61-3-509. Disposition of taxes. *(1) All registration fees imposed by [section 2, Chapter 515, Laws of 1999] from light vehicles, all registration fees imposed by 61-3-522 from motor homes, all fees in lieu of tax imposed by 61-3-527 from motorcycles and quadricycles, and all fees imposed by 61-3-529 from buses, motor vehicles having a manufacturer's rated capacity of more than 1 ton, and truck tractors, for which a license is sought and an original application for title that includes a manufacturer's statement of origin is made, must be remitted to the state treasurer every 30 days. The state treasurer shall credit the payments to the highway restricted state special revenue account.*

~~(1)~~*(2) Except as provided in subsection (2), subsections (1) and (3), the county treasurer shall, after deducting the district court fee, credit all taxes on motor vehicles, and registration fees in lieu of tax on light vehicles, and fees in lieu of tax on motorcycles, quadricycles, motor homes, travel trailers, campers, trailers, pole trailers, semitrailers, buses, trucks having a manufacturer's rated capacity of more than 1 ton, and truck tractors collected under [sections 1 through 3, Chapter 515, Laws of 1999], 61-3-504, 61-3-521, 61-3-527, 61-3-529, and 61-3-537; to a motor vehicle suspense fund. At some time between March 1 and March 10 of each year and every 60 days after that date, the county treasurer shall distribute the money in the motor vehicle suspense fund.*

Except for ~~taxes~~ *registration fees* collected under ~~61-3-504~~ [sections 1 through 3, Chapter 515, Laws of 1999], the county treasurer shall distribute the money in the fund in the relative proportions required by the levies for state, county, school district, and municipal purposes in the same manner as personal property taxes are distributed. For money in the fund collected under ~~61-3-504~~ [sections 1 through 3, Chapter 515, Laws of 1999] and 61-3-527, the county treasurer shall disregard the statewide mills levied for the university system, *county elementary and high school equalization under 20-9-331 and 20-9-333,* and the mills levied for state equalization aid under 20-9-360, *and the mills levied for state assumption of public assistance under 53-2-813* in determining distribution proportions of the money and may not distribute money from ~~61-3-504~~ collected under [sections 1 through 3, Chapter 515, Laws of 1999] and 61-3-527 to the state for ~~either levy those levies. If the distribution of money collected under 61-3-504 to a school district general fund results in a lower revenue than the district received in fiscal year 1999 and the district has, for all years after fiscal year 1999, received less revenue than in fiscal year 1999, then the district general fund is entitled to state reimbursement for the amount of the difference between the fiscal year 1999 revenue and the prior school fiscal year revenue under 61-3-504. Prior to January 31, the office of public instruction shall distribute to each school district an amount equal to the state reimbursement for the prior school year.~~

(2)(3) The county treasurer shall deduct as a district court fee 10% of the amount of the ~~tax~~ *registration fee* collected on light vehicles under ~~61-3-504~~ (1) [sections 1 through 3, Chapter 515, Laws of 1999]. The county treasurer shall credit the fee for district courts to a separate suspense account and shall forward the amount in the account to the state treasurer at the time that the county treasurer distributes money from the motor vehicle suspense fund. The state treasurer shall credit amounts received under this subsection to the state special revenue fund to be used for purposes of state funding of district court expenses as provided in 3-5-901."

(3) If [this act] is passed and approved and if Chapter 515, Laws of 1999, is approved by the electorate, then 61-3-537 must read as follows:

"61-3-537. (Temporary) Local option vehicle tax. (1) A county may impose a local vehicle tax on vehicles subject to ~~a tax~~ *the registration fee imposed under 61-3-504* [sections 1 through 3, Chapter 515, Laws of 1999] at a rate of up to 0.7% of the value determined under 61-3-503 *or a local flat fee*, in addition to the ~~tax~~ *fee* imposed under ~~61-3-504~~ [sections 1 through 3, Chapter 515, Laws of 1999].

(2) A local vehicle tax *or flat fee* is payable at the same time and in the same manner as the ~~tax~~ *fee* imposed under ~~61-3-504~~ [sections 1 through 3, Chapter 515, Laws of 1999]. The first priority of the local vehicle tax *or flat fee* is for district court funding, and the tax *or fee* is distributed as follows:

(a) 50% to the county; and

(b) the remaining 50% to the county and the incorporated cities and towns within the county, apportioned on the basis of population. The distribution to a city or town is determined by multiplying the amount of money available by the ratio of the population of the city or town to the total county population. The distribution to the county is determined by multiplying the amount of money available by the ratio of the population of unincorporated areas within the county to the total county population.

(3) The governing body of a county may impose, revise, or revoke a local vehicle tax *or flat fee* if the imposition, revision, or revocation of the tax *or fee* is approved by the electorate of the county. The imposition, revision, or revocation of the tax *or fee* is effective on January 1 following its approval by the electorate. The county governing body by resolution may provide for the distribution of the local vehicle tax *or flat fee*. (Terminates June 30, 2005—sec. 2, 3, Ch. 217, L. 1995.)

61-3-537. (Effective July 1, 2005) Local option vehicle tax. (1) A county may impose a local vehicle tax on vehicles subject to ~~a tax the registration fee imposed under 61-3-504~~ *[sections 1 through 3, Chapter 515, Laws of 1999]* at a rate of up to 0.7% of the value determined under 61-3-503, in addition to the ~~tax fee~~ *imposed under 61-3-504* *[sections 1 through 3, Chapter 515, Laws of 1999]*.

(2) A local vehicle tax *or flat fee* is payable at the same time and in the same manner as the ~~tax fee~~ *imposed under 61-3-504* *[sections 1 through 3, Chapter 515, Laws of 1999]* and is distributed in the same manner, based on the registration address of the owner of the motor vehicle.

(3) The governing body of a county may impose, revise, or revoke a local vehicle tax if the imposition, revision, or revocation of the tax is approved by the electorate of the county. The imposition, revision, or revocation of the tax is effective on January 1 following its approval by the electorate."

Section 17. Contingent voidness. If [this act] is passed and approved, then [LC 1] is void.

Section 18. Effective dates — applicability. (1) Except as provided in subsection (2), [this act] is effective on passage and approval, and [sections 6 through 13] apply to fiscal years beginning on or after July 1, 2000, and to school budgets for school fiscal years beginning on or after July 1, 2000.

(2) [Section 16] is effective January 1, 2001.

HOUSE JOINT RESOLUTION NO. 1

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA REVISING THE OFFICIAL ESTIMATE, CONTAINED IN HOUSE JOINT RESOLUTION NO. 2, LAWS OF 1999, OF THE STATE'S ANTICIPATED REVENUE FOR EACH YEAR OF THE 2000-01 BIENNIUM FOR THE PURPOSE OF ACHIEVING A BALANCED BUDGET AS MANDATED BY ARTICLE VIII, SECTION 9, OF THE MONTANA CONSTITUTION; ACCEPTING THE JUNE 30, 1999, GENERAL FUND BALANCE THAT WAS ESTABLISHED BASED ON GENERALLY ACCEPTED ACCOUNTING PRINCIPLES; AND REQUESTING THE GOVERNOR'S OFFICE OF BUDGET AND PROGRAM PLANNING TO USE THE REVENUE ESTIMATES CONTAINED IN THIS RESOLUTION AS OFFICIAL REVISED REVENUE ESTIMATES FOR FISCAL YEAR 2000 AND FOR FISCAL YEAR 2001.

WHEREAS, House Bill No. 260 (Chapter 563, Laws of 1999) created a coal producer's license tax; and

WHEREAS, revenue from the coal producer's license tax was intended to be used, in part, for investing in research and commercialization projects and economic development programs in Montana; and

WHEREAS, the Montana Supreme Court declared the coal producer's license tax an unconstitutional diversion of the coal severance tax; and

WHEREAS, the research and commercialization projects and economic development programs contained in Chapter 563, Laws of 1999, are unfunded because of the Supreme Court decision; and

WHEREAS, the Governor issued a call for a special session to begin May 8, 2000, for the purpose of appropriating from the general fund amounts necessary to fund research and commercialization projects and certain economic development programs; and

WHEREAS, at the end of the 1999 Legislative Session, the ending general fund balance for the 2000-01 biennium budget was projected to be \$51.5 million; and

WHEREAS, fiscal year 1999 general fund revenue collections have exceeded the amount estimated by the Legislature in House Joint Resolution No. 2, Laws of 1999; and

WHEREAS, general fund revenue collections for the 2000-01 biennium are expected to exceed the revenue estimates contained in House Joint Resolution No. 2; and

WHEREAS, the revised ending fund balance for the 2000-01 biennium is estimated to be \$137.7 million; and

WHEREAS, the Governor is proposing to use general fund money to provide resources for research and commercialization projects and for certain economic development programs; and

WHEREAS, the amount of estimated revenue affects policy decisions of the Executive Branch and the Legislative Branch; and

WHEREAS, the revenue estimates contained in this resolution and the underlying assumptions provide the basis for a comprehensive analysis of the state's financial condition; and

WHEREAS, given the magnitude of the anticipated 2000-01 biennium surplus and given the Legislature's responsibility to balance the budget under Article VIII, section 9, of the Montana Constitution, it is in the best interest of the state that the official revenue estimates for the 2000-01 biennium be revised.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the state general fund revenue for fiscal years 2000 and 2001 be estimated to be \$1,156,942,000 and \$1,140,613,000, respectively.

BE IT FURTHER RESOLVED, that the Legislature accept for budget purposes the unreserved fund balance of \$109,674,000 for the general fund, prepared according to generally accepted accounting principles as published in the audited state financial statements as of June 30, 1999.

BE IT FURTHER RESOLVED, that the Governor's Office of Budget and Program Planning use, as contemplated in 5-18-107(2), the revenue estimates contained in this resolution as the official revenue estimates for fiscal year 2000 and for fiscal year 2001.

GENERAL FUND REVENUE

The revised estimates for total general fund revenue for the 2000-01 biennium are based on an assumption of a continuation of Montana law as it existed on May 1, 2000. The general fund revenue estimates contained in the following table are also based on assumptions adopted by the Legislature in House Joint Resolution No. 2 during the 1999 Legislative Session, statutory changes affecting general fund revenue that were enacted during the 1999 Legislative Session, and revisions to certain assumptions, including those related to wage and salary income and capital gains income and to oil prices.

HOUSE JOINT RESOLUTION NO. 2

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA OPPOSING ANY NEW DESIGNATION FOR THE MISSOURI RIVER.

WHEREAS, a majority of Montanans oppose a new designation for the Missouri River; and

WHEREAS, the Missouri River is protected by the federal Wild and Scenic Rivers Act, Montana subdivision law, and county development regulations; and

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Legislature of the State of Montana respectfully request the Secretary of the Interior, Mr. Bruce Babbitt, to set aside any new proposed designation and support the proven management practices that have maintained the pristine conditions of the Missouri River since first traversed by the Corp of Discovery in 1804.

For purposes of this section, state and local governments may not provide telecommunications or other services in competition with private providers unless private providers cannot provide the services.

(3) It is the intent of the legislature that debt service payments for the bonds authorized by this section will be covered by the ~~increased taxes paid to the state~~ *totality of the taxes generated by the ~~venture star~~ aerospace transportation and technology infrastructure development project* projects to be calculated by an economic impact analysis of the projects on state tax revenue. When requesting the board of examiners to issue the bonds, the department of commerce shall present to the department of administration for presentation to the board of examiners the following:

Applicability: Section 18(3), Ch. 11, Sp. L. May 2000, provided: “[Sections 1 through 5] [15-6-136, 15-6-138, 15-6-201, 15-7-111, and 15-8-111] apply to tax years beginning after December 31, 2001.”

CHAPTER 7

APPRAISAL

15-7-111. Periodic revaluation of certain taxable property. (1) The department shall administer and supervise a program for the revaluation of all taxable property within classes three, four, and ten. All other property must be revalued annually. The revaluation of class three, four, and ten property is complete on December 31, 1996. The amount of the change in valuation from the 1996 base year for each property in classes three, four, and ten must be phased in each year at the rate of 25% of the change in valuation from December 31, 1998, to the appropriate percentage of taxable market value for each class.

(2) The department shall value and phase in the value of newly constructed, remodeled, or reclassified property in a manner consistent with the valuation within the same class and the values established pursuant to subsection (1). The department shall adopt rules for determining the assessed valuation and phased-in value of new, remodeled, or reclassified property within the same class.

(3) Beginning January 1, 2001, the department of revenue shall administer and supervise a program for the revaluation of all taxable property within classes three, four, and ten. A comprehensive written reappraisal plan must be promulgated by the department. The reappraisal plan adopted must provide that all class three, four, and ten property in each county is revalued by January 1, 2003, and each succeeding 6 years. The resulting valuation changes must be phased in for each year until the next reappraisal. If a percentage of change for each year is not established, then the percentage of phase in for each year is 16.66%. The department shall furnish a copy of the plan and all amendments to the plan to the board of county commissioners of each county.

(b) Subject to subsection (4)(c), if the value of an individual property is greater than 75% of the appraised value of the improvements situated on the land, then the value of the land must be determined as follows:

- (i) the department shall calculate the average value of improvements in the state;

CHAPTER 8

ASSESSMENT PROCEDURE

15-8-111. Assessment — market value standard — exceptions. (1) All taxable property must be assessed at 100% of its market value except as otherwise provided.

(2) (a) Market value is the value at which property would change hands between a willing buyer and a willing seller, neither being under any compulsion to buy or to sell and both having reasonable knowledge of relevant facts.

(b) If the department uses construction cost as one approximation of market value, the department shall fully consider reduction in value caused by depreciation, whether through physical depreciation, functional obsolescence, or economic obsolescence.

(c) If the department uses the capitalization of net income method as one approximation of market value and sufficient, relevant information on comparable sales and construction cost exists, the department shall rely upon the two methods that provide a similar market value as the better indicators of market value.

(d) Except as provided in subsection (3), the market value of special mobile equipment and agricultural tools, implements, and machinery is the average wholesale value shown in national appraisal guides and manuals or the value before reconditioning and profit margin. The department shall prepare valuation schedules showing the average wholesale value when a national appraisal guide does not exist.

(3) The department may not adopt a lower or different standard of value from market value in making the official assessment and appraisal of the value of property, except:

(a) the wholesale value for agricultural implements and machinery is the average wholesale value category as shown in Guides 2000, Northwest Region Official Guide, published by the North American equipment dealers association, St. Louis, Missouri. If the guide or the average wholesale value category is unavailable, the department shall use a comparable publication or wholesale value category.

(b) for agricultural implements and machinery not listed in an official guide, the department shall prepare a supplemental manual in which the values reflect the same depreciation as those found in the official guide; and

(c) as otherwise authorized in Titles 15 and 61.

(4) For purposes of taxation, assessed value is the same as appraised value.

(5) The taxable value for all property is the percentage of market or assessed value established for each class of property.

(6) The assessed value of properties in 15-6-131 through 15-6-134, 15-6-143, and 15-6-145 is as follows:

(a) Properties in 15-6-131, under class one, are assessed at 100% of the annual net proceeds after deducting the expenses specified and allowed by 15-23-503 or, if applicable, as provided in 15-23-515, 15-23-516, 15-23-517, or 15-23-518.

(b) Properties in 15-6-132, under class two, are assessed at 100% of the annual gross proceeds.

(c) Properties in 15-6-133, under class three, are assessed at 100% of the productive capacity of the lands when valued for agricultural purposes. All lands that meet the qualifications of 15-7-202 are valued as agricultural lands for tax purposes.

2000 Amendment: Chapter 11 in (6)(d) deleted reference to 15-6-201(1)(bb). Amendment effective May 25, 2000.

Applicability: Section 18(3), Ch. 11, Sp. L. May 2000, provided: "[Sections 1 through 5]

[15-6-136, 15-6-138, 15-6-201, 15-7-111, and 15-8-111] apply to tax years beginning after December 31, 2001."

CHAPTER 10

PROPERTY TAX LEVIES

15-10-420. Procedure for calculating levy. (1) A governmental entity that is authorized to impose mills may impose a mill levy sufficient to generate the amount of property taxes actually assessed in the prior year, even if that levy is greater than the levy established by law. The maximum number of mills that a governmental entity may impose is established by calculating the number of mills required to generate the amount of property tax actually assessed in the governmental unit in the prior year based on the current year taxable value, less the value of newly taxable property.

(2) A governmental entity may apply the levy calculated pursuant to subsection (1) plus any additional levies authorized by the voters to all property in the governmental unit, including newly taxable property.

(3) For purposes of this section, newly taxable property includes:

- (a) annexation of real property and improvements into a taxing unit;
- (b) construction, expansion, or remodeling of improvements;
- (c) transfer of property into a taxing unit;
- (d) subdivision of real property;
- (e) reclassification of property;
- (f) transfer of property from tax-exempt to taxable status; and
- (g) revaluations caused by expansion, addition, replacement, or remodeling of improvements.

(4) Subsection (1) does not apply to school district general fund levies and the school district levy for tuition obligations established in 20-5-324(5).

(5) For purposes of subsection (1), taxes imposed do not include net or gross proceeds taxes received under 15-6-131 and 15-6-132.

(6) In determining the maximum number of mills in subsection (1), the governmental entity shall take into account any change from the prior year in the amount of statutory reimbursements for changes in the property tax laws. The amount of motor vehicle disposition under 61-3-509(2) is an increased statutory reimbursement. It may increase the number of mills to account for a decrease in reimbursements and shall decrease the number of mills to fully account for any increase in reimbursements.

(7) The department shall calculate the number of mills to be imposed for purposes of 15-10-107, 20-9-331, 20-9-333, 20-9-360, 20-25-423, 20-25-439, and 53-2-813. However, the number of mills calculated by the department may not exceed the mill levy limits established in those sections.

(8) The department may adopt rules to implement this section. The rules may include a method for calculating the percentage of change in valuation for purposes of determining the elimination of property, new improvements, or newly taxable property in a governmental unit.

61-3-509. Disposition of taxes. The county treasurer shall credit the fee for district courts to a separate suspense account and shall forward the amount in the account to the state treasurer at the time that the county treasurer distributes money from the motor vehicle suspense fund. TITLE 82

MINERALS, OIL, AND GAS

CHAPTER 4

RECLAMATION

82-4-302. Purpose. (1) The purposes of this part are to:

(a) fulfill the responsibilities and exercise the powers delegated by Article IX, section 1(3) and 2(1) of the Montana constitution;

(b) allow mining as an activity beneficial to the economy of Montana;

(c) allow the production of minerals to meet the needs of society and the economic demands of the marketplace;

(d) provide for reclamation that mitigates postreclamation visual contrasts between reclamation lands and adjacent lands;

(e) provide for reclamation that affords some utility to humans or the environment;

(f) prevent foreclosure of future access to mineral resources not fully developed by current mining operations;

(g) mitigate or prevent undesirable offsite environmental impacts; and

(h) provide authority for cooperation between private and governmental entities in carrying this part into effect.

(2) Although both the need for and the practicability of reclamation will control the type and degree of reclamation in any specific instance, the basic objective will be to establish, on a continuing basis, the vegetative cover, soil stability, water condition, and safety condition appropriate to any proposed subsequent use of the area.

History: En. Sec. 2, Ch. 252, L. 1971; R.C.M. 1947, 50-1202; amd. Sec. 1, Ch. 7, Sp. L. May 2000.

2000 Amendment: Chapter 7 substituted (1)(a) through (1)(h) enumerating purposes of part for former text that read: "(a) that the usefulness, productivity, and scenic values of all lands and surface waters involved in mining and mining exploration within the boundaries and lawful jurisdiction of the state will receive the greatest reasonable degree of protection and reclamation to beneficial use;

(b) authority for cooperation between private and governmental entities in carrying this part into effect;

(c) for the recognition of the recreational and aesthetic values of land as a benefit to the state of Montana; and

(d) priorities and values to the aesthetics of our landscape, waters, and ground cover";

and made minor changes in style. Amendment effective May 18, 2000.

Applicability: Section 4, Ch. 7, Sp. L. May 2000, provided: "(1) Except as provided in subsections (2) and (3), [this act] applies retroactively, within the meaning of 1-2-109, to permits and permit amendments approved by the department after September 30, 1995.

(2) Section 82-4-336(9)(b)(ii) and (9)(b)(iii) do not apply to any reclamation plan approved by the department for a mine at which mining operations have permanently ceased on [the effective date of this act] [effective May 18, 2000].

(3) Section 82-4-336(9)(c) does not alter or abrogate any backfilling requirement imposed or approved by the department prior to [the effective date of this act]." Effective May 18, 2000.

82-4-336. Reclamation plan and specific reclamation requirements. (1) Taking into account the site-specific conditions and circumstances, disturbed lands must be reclaimed consistent with the requirements and standards set forth in this section.

(2) The reclamation plan must provide that reclamation activities, particularly those relating to control of erosion, to the extent feasible, must be conducted simultaneously with the operation and in any case must be initiated promptly after completion or abandonment of the operation on those portions of the complex that will not be subject to further disturbance.

(3) In the absence of an order by the department providing a longer period, the plan must provide that reclamation activities must be completed not more than 2 years after completion or abandonment of the operation on that portion of the complex.

(4) In the absence of emergency or suddenly threatened or existing catastrophe, an operator may not depart from an approved plan without previously obtaining from the department written approval for the proposed change.

(5) Provision must be made to avoid accumulation of stagnant water in the development area to the extent that it serves as a host or breeding ground for mosquitoes or other disease-bearing or noxious insect life.

(6) All final grading must be made with nonnoxious, nonflammable, noncombustible solids unless approval has been granted by the department for a supervised sanitary fill.

(7) When mining has left an open pit exceeding 2 acres of surface area and the composition of the floor or walls of the pit are likely to cause formation of acid, toxic, or otherwise pollutive solutions ("objectionable effluents") on

exposure to moisture, the reclamation plan must include provisions that adequately provide for:

(a) insulation of all faces from moisture or water contact by covering the faces with material or fill not susceptible itself to generation of objectionable effluents in order to mitigate the generation of objectionable effluents; or

(b) processing of any objectionable effluents in the pit before they are allowed to flow or be pumped out of the pit to reduce toxic or other objectionable ratios to a level considered safe to humans and the environment by the department; or

(c) drainage of any objectionable effluents to settling or treatment basins when the objectionable effluents must be reduced to levels considered safe by the department before release from the settling basin; or

(d) absorption or evaporation of objectionable effluents in the open pit itself; and

(e) prevention of entrance into the open pit by persons or livestock lawfully upon adjacent lands by fencing, warning signs, and other devices that may reasonably be required by the department.

(8) Provisions for vegetative cover must be required in the reclamation plan if appropriate to the future use of the land as specified in the reclamation plan. The reestablished vegetative cover must meet county standards for noxious weed control.

(9) (a) With regard to disturbed land other than open pits and rock faces, the reclamation plan must provide for the reclamation of all disturbed land to comparable utility and stability as that of adjacent areas.

(b) With regard to open pits and rock faces, the reclamation plan must provide for reclamation to a condition:

(i) of stability structurally competent to withstand geologic and climatic conditions without significant failure that would be a threat to public safety and the environment;

(ii) that affords some utility to humans or the environment; and

(iii) that mitigates postreclamation visual contrasts between reclamation lands and adjacent lands.

(c) The reclamation of open pits and rock faces does not require backfilling, in whole or in part, except and only to the extent necessary to meet the requirements of the applicable provisions of Title 75, chapters 2 and 5.

(10) The reclamation plan must provide sufficient measures to ensure public safety and to prevent the pollution of air or water and the degradation of adjacent lands.

(11) A reclamation plan must be approved by the department if it adequately provides for the accomplishment of the requirements and standards set forth in this section.

(12) The reclamation plan must provide for permanent landscaping and contouring to minimize the amount of precipitation that infiltrates into disturbed areas, including but not limited to tailings impoundments and waste rock dumps. The plan must also provide measures to prevent objectionable postmining ground water discharges.

History: En. Sec. 9, Ch. 252, L. 1971; amd. Sec. 5, Ch. 281, L. 1974; amd. Sec. 14, Ch. 39, L. 1977; R.C.M. 1947, 50-1209; amd. Sec. 2, Ch. 345, L. 1985; amd. Sec. 4, Ch. 453, L.
